

Start here: <https://cloud.uipath.com/>

Agent Builder requires the AI Center to be enabled in your organization.
The setup steps differ depending on your plan:

Case 1: Community Plan / Standard Plan

1. Log in to <https://cloud.uipath.com/>
2. Open your Admin Console.
3. Select the Default Tenant (or the tenant where you want to enable services).
4. Go to Tenant → Services → Add Services.
5. Enable AI Center.
6. Once enabled, Agent Builder will work with your plan.

Case 2: Free Plan

1. Log in to <https://cloud.uipath.com/>
2. Navigate to Admin → Settings → Advanced.
3. Delete your current Organization.
4. Create a New Organization.
5. After creating the new org, go to Default Tenant → Services → Add Services.
6. Enable AI Center.
7. Once the AI Center is active, Agent Builder will work with your plan.
